

## HAVE YOUR SAY on the future of Rowden Park

Rowden Park has long been a central sporting field in the heart of St George that holds for many of us cherished and happy memories filled with pride, triumph and sometimes sporting despair.

It's a place where our community comes together to share a passion for their given sporting codes of either footy, tennis, cricket, lawn bowls and now basketball.

To ensure Rowden Park continues to be a place fitting of the many memories it has already created, Council has developed three options to guide its long-term development as part of the Rowden Park Master Plan.

Council is now seeking feedback on proposed options for the Rowden Park Master Plan via a community survey and the following community information sessions:

**9:00am to 11:00am**

**Saturday 16 December at Rowden Park**

**4:30pm to 6:30pm**

**Tuesday 19 December at the Cultural Centre**

Balonne Shire Mayor, Samantha O'Toole said this is a great opportunity for the local community to help shape the future of a sporting facility that means so much to so many.

**Continued on page 4**

## Your Emergency Dashboard for all Disaster Information

Our Shire is no stranger to natural disaster events and keeping up-to-date with disasters and road closures as they unfold is vital for our local communities.

Our Emergency Dashboard is essentially our central source of information during natural disaster events, complete with flood cameras, updates on road conditions, weather forecasts and much more information that people will need

to access in times of an emergency.

The Emergency Dashboard is updated directly by Council staff and other Emergency Services government departments who place new information up there as it comes to hand and remove it once it is no longer

**Continued on page 7**

# What's On

## MUNGINDI POOL PARTY

To get into the swing of summer and the festive season, Mungindi pool is having a pool party for everyone to have a dip at the pool or play on the pool inflatable. This free event is a great way for your kids to keep cool and have fun these school holidays.

**When:** Wednesday 21 December  
2pm–5pm

**Where:** Mungindi Pool

## ST GEORGE AQUATIC CENTRE OPEN BOXING DAY

What are you up to this boxing day? Are you looking for a way to keep cool and spend the afternoon with your family and friends? Enjoy an afternoon at the St George Aquatic Centre this Boxing Day, 26 December.

**When:** 26 December  
1pm–4pm

**Where:** St George Aquatic Centre

## BALONNE AUSTRALIA DAY CELEBRATIONS

Celebrate your local champions and our diverse community this Australia Day!

Join us at the St George Amphitheatre on Friday 26 January at 8am for a free community breakfast, followed by the awards ceremony at 9am

**When:** 26 January  
from 8am

**Where:** St George Amphitheatre

**COUNCIL OFFICES  
WILL BE CLOSED FROM  
23 DECEMBER 2023  
AND RE-OPEN ON  
2 JANUARY 2024**

# A message from the Mayor

It has been such a big year with floods, bushfires and over \$100 million in infrastructure and road improvements delivered throughout the Shire and I'm sure everyone is looking forward to a well-earned break over Christmas.

The past month did bring a welcome reprieve from drier conditions with significant rainfall across the Shire and as much as this rainfall brought with it a much-needed reprieve from the threat of bushfires and modest inflows to dam levels, it also created widespread road closures throughout the Shire.

The vast amount of roads that were closing and re-opening during this flood event was a great example of why Council has set up the Emergency Dashboard for residents to use in times of emergency.

I would encourage everyone to please go to Balonne's Emergency Dashboard from the Council's website during emergency events, as the team updates this site in real time as they become aware of road conditions, road closures and other situations that may impact our community.

The rainfall also marginally improved dam levels, thus delaying the need to go to Level 4 Water Restrictions in St George before Christmas, which I'm sure will be welcomed by all. It is important to note that although we received an increase to the river water supply, it did not lift us out of the need for water restrictions in St George.

As a community, St George has put in a great effort to greatly reduce river water consumption recently, but we must remain vigilant as our latest consumption readings have again picked up above the target levels. We still only have a limited supply and forecasts to drier conditions ahead.

I would like to congratulate all of our newest graduates from the Balonne Country Universities Centre who were celebrated at the latest graduation ceremony. At this event, I had the great privilege of handing over a \$50,635.02 cheque from the proceeds of the Mayoral Charity Ball held earlier this year.

The Balonne Country Universities Centre has been such a successful initiative for our Shire and I hope the proceeds from this donation will help to inspire and assist more people to achieve their higher education goals.

On behalf of Council, I would like to wish you and your families a safe and happy Christmas and New Year. We look forward to seeing and working with you all in the new year.

*Samantha O'Toole*

# Record Nominations for 2024 Balonne Australia Day Awards

Council has received a record-breaking 32 nominations spread across 8 categories covering every township in the Shire for the 2024 Balonne Australia Day Awards.

Celebrations for the 2024 Balonne Australia Day Awards will kick off at the St George Amphitheatre with a Community Breakfast at 8:00am and the awards ceremony are set to commence at 9:00am.

Balonne Shire Mayor, Samantha O’Toole said this is a great outcome and thank you to everyone who made a nomination and congratulations to all our nominees for next year.

“We are looking forward to seeing all of our nominees on the day and celebrating all of the great work you have done for our communities,” Mayor O’Toole said.

All Australia Day award recipients 2023

# Business Mentoring Program using ground-breaking software

Council has partnered with software developer MyMalekso to deliver a multi-dimensional business improvement and governance platform to help guide the current round of its business mentoring program.

In July 2023, Council commenced its fourth Business Mentoring Program, after the previous programs achieved some great results for local businesses in the Shire.

This partnership means more accessible support, with up to 40 businesses being able to access one-on-one mentoring with an advisor.

Local businesses will benefit from automated reports that address problem areas, highlight opportunities for improvement, and provide recommendations for sustainable growth.

The platform also boasts diagnostic tools, templates, and performance monitoring features, that provide additional assistance and education to businesses that have registered.

In addition to offering real-time performance monitoring, the platform also ensures complete transparency, which is fundamental to publicly funded initiatives.

# Bollon Business Boom

Business in Bollon is booming as two shopfronts get a facelift, the Bollon Post Office and The Bollon Cafe!

The Bollon Post Office, now known as Little Mulga Mailbox, has new local owners - the Wall family.

Since taking over mid-November, the Little Mulga Mailbox has a new stock range to provide all your Christmas gift needs and smiling faces in store.

“We are so excited to have Little Mulga Mailbox open and are looking forward to supporting the community” Emily said.

The Bollon Cafe also has a fresh look now under new management with Rebecca Steer and Carly Lowe.

Bec & Carly have revamped the Cafe to create a beautiful, relaxing space with plenty of homemade goods, hot food and delicious coffee.

“The Bollon Cafe has always been a popular spot for the locals and tourists, we love being a part of the community and ensuring everyone is well fed!” Bec & Carly said.

The fresh faces at these two businesses are a positive sign for the Bollon community, who have been working hard to attract new businesses and visitors to the area. We look forward to watching the success of the Little Mulga Mailbox and the Bollon Cafe.

Emily Wall from Little Mulga Mailbox

Bec and Carly from Bollon Cafe

**Are You On Channel?**

**UHF CHANNEL COLLECTION FOR DISASTER MANAGEMENT**

The Balonne Local Disaster Management Group is asking all Farming Properties in the Balonne Shire to update and confirm their UHF Channel.

This is to ensure successful and efficient communication in the event of a Disaster, as many areas of the Shire do not have mobile phone coverage.

To update or confirm your Property's details, contact Council on 4620 8888.

For more information, contact Council on 4620 8888.

## Continued from page 1

“We want to make sure that as we develop Rowden Park into the future, it is in line with what the community and park users would like to see developed,” Mayor O’Toole said.

“The three proposed options were the result of past engagement with the clubs that use Rowden Park and each option outlines facilities that will continue to suit the future needs of all sporting codes.

“This Master Plan is about the long-term view for Rowden Park and setting in place a direction for how we would like it to be in 10, 20 or 30 years time.

“Although some of the changes may fit into the ongoing oper-

ational Council budget, the bigger picture items might require grant funding and further community consultation at a later date.

“I would urge anyone that has an interest in the future of Rowden Park to go to the website and provide their feedback, so we can take everyone’s views into consideration.”

Feedback will be open until 15 January 2024, which will then be compiled and presented to Councillors for deliberation at their next meeting.

# Calls for feedback on St George Cemetery Extension

With the St George Cemetery reaching capacity, Council is seeking community input into the expansion of the existing cemetery with a new cemetery Master Plan.

Council is currently seeking community feedback on the design of the Master Plan, which incorporates this new expansion.

The Master Plan will guide the long-term development and expansion of the St George Cemetery into the future.

**Council is now seeking feedback on the extension of the St George Cemetery via a community survey and at the following community information sessions:**

**4:30pm to 6:30pm Tuesday  
19 December at the Cultural Centre**

**4:30pm to 6:30pm Thursday  
11 January at the Cultural Centre**

The Master Plan sets out of a range of new facilities and although some of this infrastructure will be built in the Council’s operational budget, much of the development will be reliant on future grant funding.

## Works on the existing cemetery include:

- Upgrading the existing boundary fence with gates for better side access;
- Additional tree planting to the centre of the existing area;
- Existing front gates will be relocated to the rear of the existing cemetery.

## The design for the additional area includes:

- An additional 892 grave plots to the south of the existing cemetery;
- An open-air Chapel to accommodate funeral ceremonies with seating for around 60;
- Designed ‘Feature’ main entry gates and matching exit gates to the Cemetery and feature walls with signage;
- Ash interment gardens with bespoke memorial cylinders;
- Proposed columbarium wall;
- Landscape buffer at South Eastern boundary with native tree, shrubs and groundcover planting.

Community feedback will be open until 15 January 2024, which will then be compiled and presented to Councillors for deliberation at their next meeting.

## Do you know how to keep up to date with current Bushfire Warnings?

### Balonne Shire Emergency Dashboard

[www.emergency.balonne.qld.gov.au](http://www.emergency.balonne.qld.gov.au)

### QFES Current Bushfire Warnings and Incidents

[www.qfes.qld.gov.au/Current-Incidents](http://www.qfes.qld.gov.au/Current-Incidents)

## Water Saving Tips Mulching

Mulching is essential for a water-efficient garden. Mulching around plants saves water by reducing evaporation and run-off.

### Choose The Right Mulch:

- Inorganic mulch, such as rocks and pebbles, helps to reduce evaporation.

### Prepare For Success:

- For the best result, prepare the soil by removing weeds, raking or digging the surface and watering the remaining plants

### Spread the mulch layer

- The ideal mulch thickness depends on particle size. Keep mulch 6-7cm away from stems to prevent rot.

## Are you on Channel?

Balonne Shire's Local Disaster Management Group (LDMG) is urging local farmers to update their property's UHF channel to Council to enhance communication and coordination during future natural disaster events such as bushfires.

The Council recognises the vital role that local farmers play in our community and their knowledge of the land and communication networks can be invaluable in managing and mitigating the impacts of natural disasters given the inconsistent mobile phone coverage in the Shire.

This initiative is part of the Council's proactive approach to update the current information already collated and protect the local community in times of emergency situations.

Balonne Shire Mayor, Samantha O'Toole said we are committed to ensuring the safety and well-being of all residents.

"As many parts of our Shire have patchy or no mobile phone coverage, the collection of UHF channels used on farming properties is a crucial network to harness and understand," Mayor O'Toole said.

"By providing their UHF channels, farmers will be contributing to a comprehensive database of around 450 farming properties in the Shire that

the LDMG can use to facilitate effective communication during emergencies.

"This will enable swift dissemination of critical information, coordination of resources, and timely updates on the situation."

Farmers are encouraged to participate in this initiative by contacting Council directly on 4620 8888.

## We need to be ready for all natural disasters in Balonne

Following on from previous flooding events, Balonne Shire has been working with the community to create a series of insightful videos to prepare us for any future flooding events.

Our recent rainfall is a reminder that flooding or isolation can happen quickly and at any time in our Shire.

It's always best to be prepared, know your local area and flood history, make an

emergency kit and establish a plan.

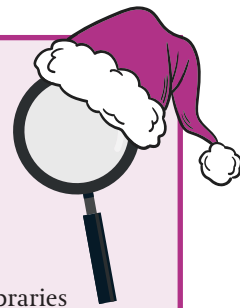

Our Flood videos can be viewed on the homepage of [www.balonne.qld.gov.au](http://www.balonne.qld.gov.au) or the Balonne Shire Council Youtube channel.

In times of emergency, visit the Balonne Shire Council Emergency Dashboard for regular updates; <https://emergency.balonne.qld.gov.au/>

These videos were funded by the Australian and Queensland Governments under the Disaster Recovery Funding Arrangements.

## THE LIBRARY LENS

Balonne Shire Libraries are free to join as a part of the Rural Libraries Queensland and services to over 2000 people each month.

Our latest book exchange has arrived in the Balonne and has hit the library shelves, ready for new and different books for your Christmas reading!

Enjoy your holiday break at the St George Library with great arts & crafts activities.

**Help us create a safer Balonne in times of Emergency.**

**We are calling for community feedback on how we can further improve Disaster Management via an online survey.**

**ILLEGAL DUMPING**

**WE ARE WATCHING!**

INCREASED SURVEILLANCE: ILLEGAL DUMPING

FINES OVER \$2,000

We have put in place increased surveillance measures to combat illegal dumping in the Shire.

On-The-Spot fines apply of up to 30 penalty units (\$4,644) for an individual and up to 150 penalty units (\$23,220) for a corporation.

Illegal dumping can be reported online, to Council or by email.

For more information, contact Council on 4620 8888.

**Continued from page 1**

necessary.

The community also has the ability to feed information directly to us for the Dashboard by contacting Council on 4620 8888 or emailing council@balonne.qld.gov.au.

As a Council, we also have regulatory obligations to provide factual information to our community and directing people to the Emergency Dashboard is the best way of providing up-to-date and factual information as opposed to Facebook where incorrect information can reverberate for days and weeks.

This is the reason Council directs people to the Emergency Dashboard on social

media during natural disaster events, as opposed to posting every road closure or giving directions for people's travel plans, which may be subject to change at any time.

You can also find info at other resources, such as:

[www.qfes.qld.gov.au/Current-Incidents](http://www.qfes.qld.gov.au/Current-Incidents)

for Queensland-wide fire warnings and incidents or

<https://qldtraffic.qld.gov.au/>

for Queensland-wide road conditions and road closures.

## New Mungindi Boat Ramp now open to the public

The new boat ramp at Mungindi River Park is now finished construction and is open for use.

The addition of the \$300,000 Mungindi Boat Ramp will improve safety and reduce environmental damage to the Barwon Riverbank.

The boat ramp is a complimentary installation to the upgrades at Mungindi River Park, such as the footpath extension.

"It is great to see these upgrades completed at the Mungindi River Park." Mayor O'Toole said.

The new additions will greatly benefit the local Mungindi community on both sides of the border in terms of liveability and improved amenities and accessibility to attract more tourism to the area.

The Official Opening of the Mungindi Boat Ramp will occur in the coming period.

This project was managed by the Balonne Shire Council and funded by a grant from the New South Wales Government.

Mungindi Boat Ramp now complete

## ENVIRO-COLUMN

### Devils Rope Cactus

The Devils Rope Cactus is a very spiny, drought tolerant shrub or small tree up to 3 meters tall.

The Devils Rope flowers are red-purple and produce numerous viable seeds that are readily distributed to new sites by the stem and fruit fragments attaching to animals, footwear, and vehicles.

It thrives in semi-arid and arid environments and occurs in native environments, in woodlands and shrublands.

To manage small outbreaks and for scattered plants burying, burning or chemical control is preferable.

For more information on the Devils Rope Cactus or on how to manage them scan this QR code:

# Out and About in Balonne

## New Basketball Court Opens Balonne Style

Council joined together with the Youth Council and local Police to launch the new basketball court in Rowden Park, St George with a nail-biting display of sporting prowess that would easily have drawn the interest of NBL selectors.

The opening of the court involved a range of three-on-three matches and an exhibition match with an elite sporting

team of Councillors and Council staff versus an ultra-athletic team from the local Police.

“As much as Council would like to say we showed the Police who owns the court, I think the Police might’ve just got the upper hand on the scoreboard,” Mayor O’Toole said.

“Mind you, the whole scoring process did get a little bit lost in the whole competitive fun of the match.

“We really hope everyone enjoys the new Basketball court and maybe us Councillors will have to have a re-match with the Police after a bit more practice.”
